ABOUT ME

I was born in Istanbul. I graduated from Fuat Sezgin Anatolian High School and I am currently studying Computer Programming at Kastamonu University. My goal is to keep learning and find a good position in the software industry. I am open to learning, enjoy researching, and have a strong interest in technology

WORK EXPERIENCE

INTERN

Kastamonu University - Kastamonu - 2025

- I completed a 30-day mandatory summer internship at Kastamonu University. During this time, I worked on hardware tasks and gained experience with computers and hardware components. I also took part in graphic design projects. During the internship, I had the opportunity to improve my technical skills and learn to work well in a team.
